RECOMMENDED ACTIONS

#	Priority	Finding	Recommended action	Owner
2	High	Floating waste is detected on the water surface and plastic waste is scattered along the shoreline and exposed bed.	Deploy surface skimming or net booms at the inflow, and run a shoreline clearance drive; add bins at the bridge approach.	Sanitation
3	High	Loose ground debris covers roughly a quarter to a third of open ground in every zone - the weakest park-wide score.	Raise sweeping frequency across all four zones; establish a weekly leaf-fall clearance cycle and add bins where none were observed.	Sanitation / Horticulture
