Recommended Actions				
#	Priority	Finding	Recommended action	Owner
8	Low	Tree tree cover is dense and vigorous throughout, and no stem exceeded the lean threshold for an unsafe-tree alert.	Maintain the current arboricultural regime; no immediate intervention indicated from this pass.	Horticulture Division
10	Process	True NDVI cannot be produced from an RGB payload; the visible-band ExG proxy was used instead.	Add a multispectral or red-edge payload for genuine plant growth-index monitoring.	Survey / Drone Cell
