RECOMMENDED ACTIONS

#	Priority	Finding	Recommended action	Owner
4	High	The play-zone surface is predominantly bare hard-packed earth with no ground cover.	Re-establish a wear-tolerant ground cover or install an impact-absorbing play surface; decompact and top-dress before the monsoon.	Horticulture Division
8	Low	Tree tree cover is dense and vigorous throughout, and no stem exceeded the lean threshold for an unsafe-tree alert.	Maintain the current arboricultural regime; no immediate intervention indicated from this pass.	Horticulture Division
