RECOMMENDED ACTIONS

#	Priority	Finding	Recommended action	Owner
1	Critical	The ground plane has failed in both zones - bare hard-packed earth at 30.5% and 21.2% of frame with lawn cover at 2.4% and 8.0%. watering scores 46.9 in the play area.	Reinstate ground cover as a programme, not a patch repair: decompact, regrade, re-turf and install watering that actually reaches the play area. Under play equipment, install a proper impact-absorbing surface rather than bare earth.	Horticulture / Engineering
